

Hand Dressed Pitched Faced Walling

Course Heights	63mm; 75mm; 100mm; 140mm; 150mm*; 178mm*; 215mm * To special order only
Description	Woodkirk Stone is a fine grained carboniferous sandstone
Colour	The colour of newly quarried stone varies from blue through grey to buff. The stone weathers to a rich buff - brown
Usage	To ensure optimum colour distribution in finished walling, we recommend that stone is walled from more than one pallet.
Density	2400 Kg/m ³
Compressive Strength	54 MN/m ²
Water Absorption	4% by weight after 24 hours at 20°C
Moisture Drying Shrinkage	0.035%
Movement Wetting Expansion	0.035%
